

## I have been placed in the Dublin procedure

### • Why was I placed in the DUBLIN procedure?

If you are placed under the Dublin procedure, it is because you are concerned by one of these criteria:

- You have irregularly crossed the borders of an EU Member State in which you were checked by fingerprint in the 12 months preceding your asylum application.
- You have applied for asylum in another EU Member State (whether this application is in court or has been rejected);
- You have received a visa or a residence permit in another state of the European Union.

### • How will my procedure go?

Appointments have been given to you at the prefecture. These appointments are mandatory for the follow-up of your procedure. At the first meeting, your asylum application certificate will be renewed. You may be called again. If documents that you do not understand are given to you, do not hesitate to contact us for clarification.

- We can provide you with a list of lawyers to contact if necessary. Be aware that recourse is not always advisable. Do not hesitate to contact us for more information.
- If you are under house arrest, it is strongly advised to respect the clockings at the police station.

If you do not attend your appointments at the Prefecture, you could be considered to be on the run. If this is the case, your asylum application will be interrupted:

- you will no longer receive the asylum application allowance;
- you will no longer be able to renew your asylum seeker certificate for 18 months.

For more information, contact us.
